

5th Annual ProCross Open House

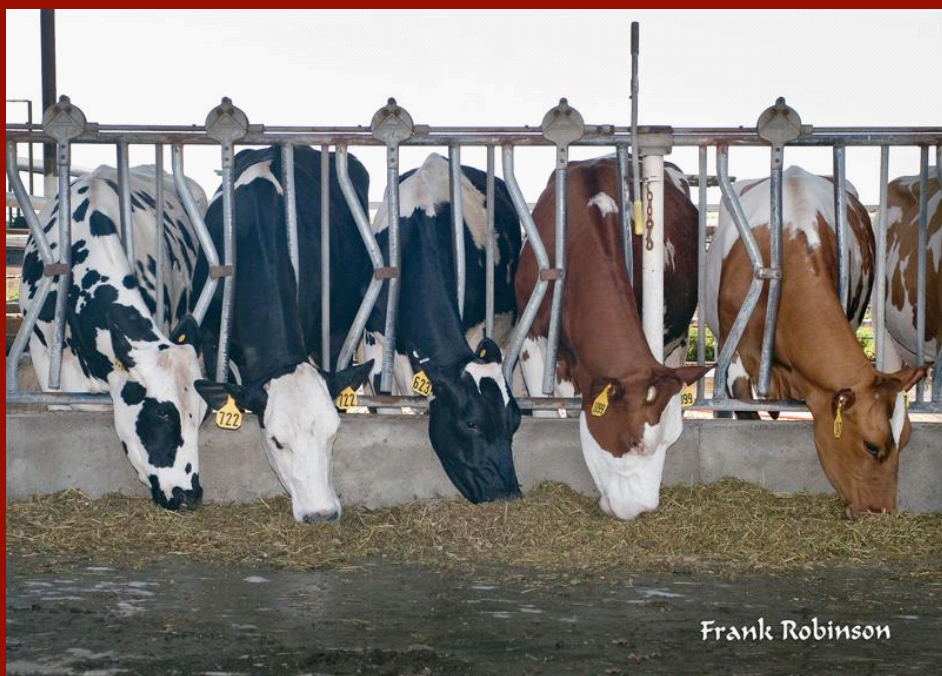

Come and see the progress of the ProCross breeding system using Montbeliarde, Swedish Red and Holstein.

We are now in our 12th year of Crossbreeding!

Come visit these dairies and speak to owners and their herds- men to find out more about the ProCross cow!

The ProCross cow is very durable, excellent reproduction, low SCC, and has a Brett Farve desire to survive!

Please contact us to register for the tour, we can assist you with the hotel arrangements and directions.
